PROPOSED SOLUTION

Team ID	PNT2022TMID13325
Project Name	Containment zone Alerting Application

Idea

- Constant updation of result collected from the testing centre about the affected people can be merged with the application.
- We intend to collaborate our application with google map to locate the containment zone.

Novelty

- It will alert the user before reaching the place using the current location of the user whether the place is affected or not .
- If affected it will enroute alternate way.

Social impact

- This project will satisfy the customer need.
- For example: Suppose if we travel to a place where a specific area is affected by covid this application will alert the user(customer) which intern reduces the cause of infection by the affected people.

Business model

- No.of users downloading the application
- In association with pharmacy(telemedicine)
- Internet usage
